AGENDA STAFF REPORT

AGENDA DATE: March 20, 2026

ACTION REQUESTED: This is a study session item for discussion only. No formal action is requested at this time. Staff is seeking direction from the Committee regarding preferred rate structure and policy considerations for the Stormwater Utility.

BACKGROUND: The City's Stormwater Utility is responsible for the operation, maintenance, and improvement of stormwater infrastructure, as well as compliance with state and federal regulatory requirements. Current revenues must support ongoing maintenance needs, capital improvements, and permit compliance obligations. In order to evaluate long-term financial sustainability and equity among ratepayers, staff has developed and reviewed potential rate structures based on Equivalent Residential Units (ERUs). Key Discussion Points
Staff is seeking Committee feedback on the following:

- Appropriateness of the \$120 per ERU rate level
- Exemption of undeveloped, agricultural, and forest properties
- Equity between residential and commercial ratepayers
- Revenue sufficiency for:
 - Ongoing operations and maintenance
 - Capital improvement needs
 - Regulatory compliance

RECOMMENDATION: If the Committee reaches consensus on a preferred stormwater rate structure, staff will proceed with drafting the necessary municipal code language. Following draft development, the proposed code amendments will be brought back to the Committee for review prior to advancing to City Council for formal consideration and adoption.
